

ABOUT JCMG

Jefferson City Medical Group is one of Missouri's largest multi-specialty groups. JCMG grew from the belief that the best medical decisions are made by patients working closely with their physicians.

It began in 1993 with the merger of physicians from Internal Medicine, Inc. and Family Practice Specialists.

Today, the teamwork in medicine is maintained by over 100 providers in 30 medical specialties with a staff of more than 640 employees.

We are also independently-owned which means our only obligation is to you and your health care needs.

JCMG Mission

To provide high quality, cost-effective, patient centered healthcare to Central Missouri.
